Congenital anomalies of external genitalia

ALEXANDRIA NATIONAL UNIVERSITY
ANU MEDICAL SCHOOL PROGRAM

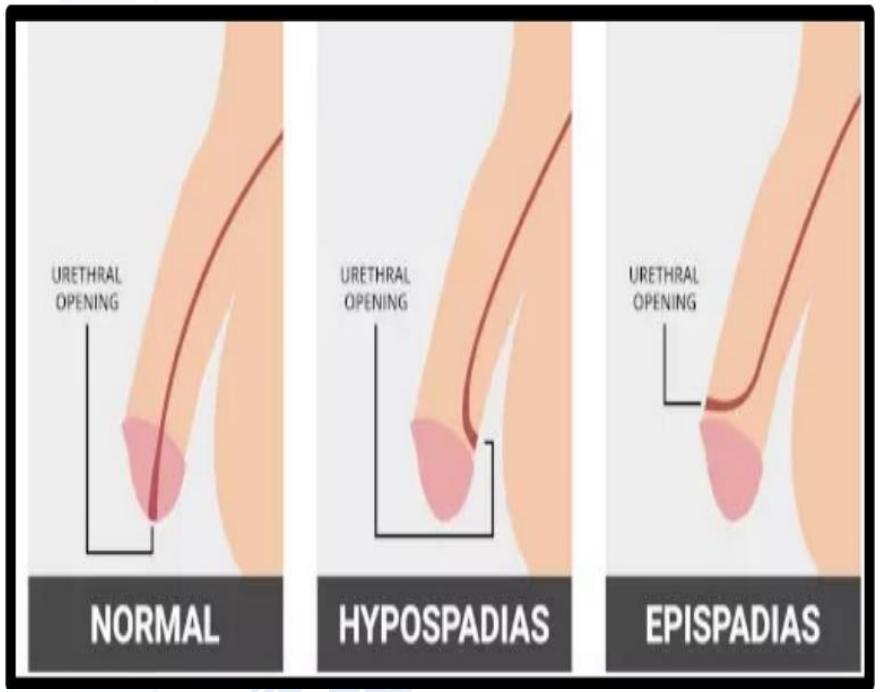

Congenital anomalies

1. **Micropenis** : due to insufficient androgen stimulation for the development of external genitalia

2. **Double penis** : due to splitting of the genital tubercles.

3. **Hypospadias** : due to incomplete fusion of the urethral folds. The urethral opening lies on the under surface of the penis.

4. **Epispadias** : the urethral opening lies on the dorsal surface of the penis.
