Layers of the urogenital triangle

- Progressing from superficial to deep (or inferior to superior):

1. Skin and adipose layer
2. Membranous layer of superficial fascia, named Colles' fascia in the perineum (continuous with Scarpa's fascia of the abdominal wall).
3. Superficial perineal pouch
4. Perineal membrane (Inferior fascia of urogenital diaphragm)
5. The deep pouch (urogenital diaphragm).
6. Superior fascia of urogenital diaphragm.

ANU MEDICAL SCHOOL PROGRAM

Fascia of the urogenital triangle

1.Colle's fascia : It is a continuation of the membranous layer of superficial fascia of the anterior abdominal wall (Scarpa's fascia).

2. Perineal membrane (inferior fascia of urogenital diaphragm).

3.Superior fascia of the urogenital diaphragm.
