Iliac bone

- It is the upper part of the hip bone. It has the following parts:

1- iliac crest : the upper margin that ends anteriorly at the anterior superior iliac spine and posteriorly at the posterior superior iliac spine.

N.B. The *anterior inferior iliac spine* lies below the anterior superior spine and *posterior inferior iliac spine* lies below the posterior superior one.

Iliac bone

2. pelvic (inner) surface shows the iliac fossa.

3. gluteal (outer) surface that gives origin to the muscles of the gluteal region.

4. auricular surface for articulation with the sacrum.

5. iliac tuberosity behind the auricular surface.
